

ASSASSIN FIRES AT LORD ACTON

London, Eng., March 1.—It is understood that an attempt has been made to assassinate Lord Acton, the British minister to Finland, at Helsingfors. The minister was driving to the market place in the early morning when shots were fired at him, but he was not struck. No arrests have been made. The motive for the attack has not been learned.

Lord Acton, who formerly was British consul general at Zurich, was appointed minister to Finland on September 1 last. He began his career in the foreign office in 1884.

Great Britain recognized the independence of Finland on May 6 of last year. Similar action was taken by the United States May 2.

HOBBY URGED TO QUARANTINE COTTON BOLL WORM DISTRICTS

Austin, Texas, March 1.—Gov. Hobby has been urged by the Texas cotton growers' association to establish and maintain sufficient quarantine and police authority in non-cotton zones of the state to remove the boll worm menace.

The commission agreed also that the governor call a special session of the legislature to consider the matter, but the executive has given no indication of what action he will take.

The commission declares that if Texas does not take immediate action there will be a demand on the part of other states for a federal quarantine against the Lone Star state.

Such a quarantine, it is pointed out, would result in sharp lowering of prices.

Honest Effort

Clark's O. K. \$100 Oil Units is an honest effort to put oil promotion on an honest basis. We are after production.

Under the Clark Unit Plan a \$100 investment on a 100-barrel well—the smallest well we expect in the Clark-Homer location—will pay \$125 per month, or \$150 per year. Extra profit with A. S. Curtis & Co., Hotel Sheridan, Dallas, Texas, or El Paso Stock Exchange, El Paso, Texas.

Tugs Remove 63 From Stranded Ship Bohemian

Baltimore, N. S., March 1.—Sixty-three passengers of the steamship Bohemian, which struck on Sumbro Island off Halifax harbor on Sunday night, were taken off by tugboats and brought here. Tugs stood by the vessel, which was bound for Liverpool from Boston. The 120 members of the crew remained on board.

TO FLOAT AT HIGH TIDE

Boston, Mass., March 1.—Officials of the Leyland line received word today that the steamship Bohemian probably would float at high tide. The vessel had 42 passengers, two disabled British seamen and a crew of 120.

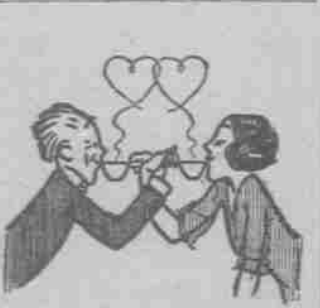

English Paper Refutes Wilson Suffering From Lack of Good Judgment

Manchester, Eng., March 1.—President Wilson's letters in the Atlantic correspondence, just published, are considered by the guardian as a refutation of the reports that his illness had caused some loss of mental force and balance.

It is stated: "If president Wilson is suffering from any malady of political judgment could not some American bacteriologist convey to us a few germs that we may inoculate our European premier?"

The guardian continues: "One's chief regret in reading president Wilson's admirably phrased letters for a wise and honorable policy in the Atlantic is that it should be left to him to frame it. One feels that England somehow has surrendered her rightful part in the drama to an American."

GRAVEL DEPOSIT FOUND ON MOUNT

Gravel beds have been found along the side of Mount Franklin, mayor Charles Davis has been told, and the gravel is in sufficient quantities to be used on the scenic driveway. After the roadway is finished the gravel will be put around the drive.

Plans for the construction of the scenic driveway will be opened March 3, and work will begin on it as soon as possible thereafter.

The driveway will be completed in about six months after work begins, it is estimated.

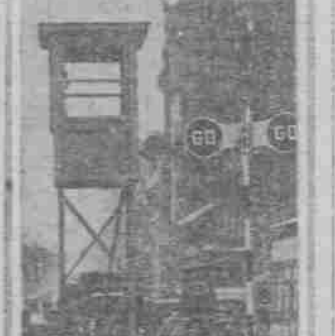

The city councilmen are of the opinion that some day in the not far distant future the driveway will be paved.

BULGARS PLACED UNDER

Bern, Switzerland, March 1.—Bulgarian mailmen and postmen are being placed under a new system of control through the streets of Bern, Switzerland, say advisers received here. This exposure, which reveals the medical efforts to be producing good results.

N. Y. Police Direct Traffic From Tower

Tower for traffic cops.

THE successful directing of heavy traffic on Fifth avenue, New York, which has long been a problem, will be brought about, it is thought, through the use of radio towers. The photograph shows the tower which has been erected in Fifth avenue at Fifty-eighth street. It places the officer out of danger and gives him a better view. This plan was successfully introduced in Detroit.

ROME HOUSE MAIDS DEMAND SEA TRIPS AND CIGARETTES

Rome, Italy, March 1.—The maid servants have held a mass meeting at Ferrara and have unanimously adopted a resolution regarding their claims. These include among others the demand for a fortnight's vacation so that they may go to the sea at the expense of their employers, who during that time must pay them double wages owing to the absence of summer resorts. They also demand two cigarettes daily throughout the year.

CHARLES R. MOOREHEAD CELEBRATES ANNIVERSARY

New York, March 1.—Charles R. Moorehead, pioneer El Pasoan, celebrated his 60th birthday anniversary today in New York. He was one of the organizers of the pony express which carried the mail in 1850 to San Francisco, and helped develop the west and southwest in the early days.

A message was sent to El Paso asking that city to celebrate his anniversary Saturday with the Rocky Mountain club of New York.

United Americans In Texas Take Up The Battle To Combat Bolshevism

HOUSTON, Texas, March 1.—State Headquarters of the United American League is rapidly fitting up its plans to carry a realization of existing conditions to the most remote parts of Texas.

Its object is to counteract the ill-considered and destructive plans of those who are dissolving in the place of order. The doctrine of "100 percent Americanism" is to be carried wherever there is a Texan with red blood in his veins.

During the week over 1000 letters have been written and dispatched to Texans in the first movement to create a concrete organization which will forswear and counteract the doctrine which is finding its way into Texas from the bolshevik in the United States.

Many replies are coming in and the indications are that within a short time membership in the United Americans in Texas will be large.

It is difficult for our patriotic citizens in Texas to conceive of the enormous propaganda which is being poured into the country by the bolshevik press. It is our purpose to awaken them before it is too late.

COTTON WILL REPLACE DAIRY BUSINESS IN ARIZONA AREA

Phoenix, Ariz., March 1.—"Salt river valley has just about finished selling its milk stock," in the declaration of a leading local stock owner, who has had a large share in finding several thousand head of high-grade Holsteins and Jersey for shipment mainly to Texas. The valley stock now is down to a limit at which the creamery and one of the two big Arizona condenseries can hardly be supplied after the fresh milk demands of the other considered. One condenser, that at Tempe, is shut down and the creamery are far from running at capacity. Tens of thousands of acres of alfalfa have been turned under for cotton. Feed, both hay and grain, is declared too high for dairy profit.

The cows left are the pick of the herds and there is confidence that the natural increase would bring back old conditions within a few years, with even better stock, in the belief that cotton and alfalfa are being herded out on the plains, where lush greenness are springing up from the early rains. In places north of Phoenix the alfalfa is three inches deep on thousands of acres.

WOMEN IN NEW MEXICO TO SIT AS G. O. P. DELEGATES

Santa Fe, N. M., March 1.—When the Republican state convention meets March 26 at the state capitol building, it will be the first time in the history of the party in this state that women are admitted as delegates.

The convention to be held later this year to nominate state candidates will also be the largest in the history of New Mexico, with 2000 delegates and probably 40,000 spectators.

The appointment to the Santa Fe convention will be as follows: Bernadine C. Carter, 1st, Clara 2, DeBucca 3, Dona Ann 12, Edwy 2, Grant 11, Guadalupe 1, Hildalgo 1, Lee 2, Lincoln 1, Luna 1, McKinley 4, Moore 12, Olcott 4, Quay 4, Rio Arriba 12, Roosevelt 1, Sandoval 5, San Juan 2, San Miguel 26, Santa Fe 14, Sierra 2, Slocum 15, Tanc 3, Terrance 3, Union 18, Valencia 13.

Letters To The Herald

DR. BLACK'S PROSECUTION.

Editor El Paso Herald:

I would like to ask to be enlightened through The Herald, as to who it is that prosecutes and has brought conviction to Dr. Black. I would like to know whether it is a lawyer employed by some doctor, or one of the lawyers that the people of El Paso vote for and pay a salary to.

What of the man who makes a personal issue with the press, if it happens to report something that he doesn't like? He certainly is in need of sympathy. Silly stuff. In passing, the persecuted gets more free advertisement than he could pay for in years. The voice of the people is the voice of God.

El Paso Seed Co.'s 1929 Catalog now ready. Write or call for a copy.—Adv.

Lucy Wilson.

(Dr. Black was prosecuted by the county attorney, W. H. P. Johnson, on an indictment returned by the grand jury. Who caused the indictment to be returned is not publicly known, as grand jury proceedings are secret. The law makes it the duty of the county and district attorney to prosecute all cases wherein indictments are returned by the grand jury.—Editor.)

THE DUTY OF THE PRESS.

Editor El Paso Herald:

Some time ago The Herald carried an editorial on the duty of a newspaper to its readers. It was a splendid article, but was it at all necessary?

The press needs no defense when it reports a case of seeming injustice, whether it be of the law or not; that is its mission.

Some people may say it is to cut off the subscription when they don't approve but for those I heartily feel sorry.

The M. D.'s take the oath of Hippocrates before leaving their respective medical colleges, and that oath is: "To relieve suffering, of humanity." Law or medicine is often one of the things that enters into the confines of their varied practices. Strangers that they profess to protect, or persecution, so soon forget their oath—I cannot believe it; the great medical gentlemen by birth and by profession.

The strangest part about the whole controversy is that theisher of one of the most ethical of a kindred profession—a specialist in his line—was cured from all further path by Dr. Black and his friends.

Some of the good citizens condemn the county attorney for his part in the proceedings; they should know that they are the very ones that require him to take an oath that he will enforce the law on the statute books. There are lots of laws that he would enforce if you, dear citizen, would take the trouble and make due and lawful use of them. First be sure of your ground. He is working longer these days than the plumber or his helper and doesn't draw extra pay either. He is not a human monster, acting in every mood and corner of this town. He has duty one helper, and he ought to have a dozen. The law doesn't allow him more. He is one of the kindest of men—knows the difference between a premeditated sin and a thoughtless sin—and in fact needs no defense.

It was the duty of the press to bring this case of Dr. Black to our notice. It is the duty of the press to bring to our notice the vice condition, no matter how many church or non-church members it affects. It is the duty of the press to tell us of the duty of the press to report to us anything of color in our midst, and the national capital, that the population may form judgment and

ARIZONA ENGINEER WANTS \$70,000 HIGHWAY FUND

Phoenix, Ariz., March 1.—State engineer Tom Maddock has made application to governor Campbell for appropriation of \$70,000 from the emergency road funds, with statement that \$40,000 will be needed for construction of a temporary trestle bridge across the Agua Fria River west of Phoenix. At that point the stream has wiped out a lengthy bridge that had been built for the greater part of a century. Without proper footings it is understood that the site is to be abandoned and a narrower and more favorable location used. It is estimated that \$60,000 would be needed to put a permanent concrete bridge across the channel, which usually is dry for 11 months of the year.

A "PEEP" AT THE PLANS OF PRODUCERS

DURING the past few days you have had briefly explained in these columns the ORGANIZATION, the MANAGEMENT and the HOLDINGS of the PRODUCERS' OIL & REFINING COMPANY.

NOW give a few minutes THOUGHT to the EXTENSIVE PLANS OF PRODUCERS' and to the FEATURES OF PRODUCERS' which make the working out of these plans a matter of the VERY NEAR FUTURE.

With PRODUCERS' there is no need to WONDER whether it will GET PRODUCTION. ONE WELL in Tract 8 in BOSSIER PARISH, LOUISIANA, is NOW CAPPED, to be DRILLED in SOON and with 1600 barrels of OIL in the STORAGE TANKS. Another well on a nearby 40 ACRE TRACT is STANDARDIZING TO DRILL IN. Three OTHER WELLS are ALREADY DRILLING at a depth of over 2500 FEET and 5 ADDITIONAL WELLS will be started in the NEAR FUTURE.

But the PRODUCTION of oil is only the BEGINNING of the ACTIVITIES of "PRODUCERS." PLANS are already laid which, when carried out, will make this company one of the

LARGEST PRODUCING, REFINING and PETROLEUM MARKETING COMPANIES IN THE SOUTHWESTERN OIL FIELDS.

These extensive plans include REFINERIES, PIPE LINES, TANK CARS, RAILROAD SPURS, LOADING RACKS, WAREHOUSES, STORAGE TANKS, SELLING DEPOTS, FILLING STATIONS and a COMPLETE SELLING ORGANIZATION.

This important PROGRAM—the MANAGEMENT OF REAL OIL MEN—the AMPLE FINANCIAL BACKING—which enables PRODUCERS' TO CARRY OUT its plans REGARDLESS of the sale of its shares—all COMBINE to make PRODUCERS' an ENTIRELY DIFFERENT PROPOSITION.

The books of the company are now open for SUBSCRIPTIONS. Its shares are \$1 PAR. RESERVATIONS totaling MANY THOUSANDS of SHARES have already been made.

PRODUCERS' will MOVE FAST. YOUR SUBSCRIPTION should be sent AT ONCE by MAIL or WIRE, direct to the COMPANY or to YOUR BROKER.
